

## How to reset a user password within X-Docs

Sam Menown - 2022-03-02 - X-Docs

# X-Docs

Admin users can access the Manage Active Directory option in X-Docs to reset a user's password. First ensure you are on the home page of your site otherwise you won't be able to find the below location.

### Go to Site Settings > GECP Tools > Administrator Tools > Manage Active Directory > New Password
